PROXIES

Solicitation of Proxies

This management information circular (“**information circular**”) is furnished in connection with the solicitation of proxies for use at our annual and special meeting (“**Meeting**”) of the holders (“**shareholders**”) of common shares (“**common shares**”) of the Corporation to be held on Thursday, May 6, 2010 at 10:00 am (Bogotá time) in the Millennium Meeting Room at the Radisson Royal Bogotá Hotel, Calle 113 No. 7-65, Bogotá, Colombia and at any adjournment thereof. Proxies must be addressed to and reach Computershare Trust Company of Canada, Proxy Department, 9th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, not less than forty-eight (48) hours before the time for holding the Meeting or any adjournment thereof (excluding Saturdays, Sundays, and holidays). Only shareholders of record at the close of business on March 31, 2010 (the “**Record Date**”) will be entitled to vote at the Meeting, unless that shareholder has transferred any common shares subsequent to that date and the transferee shareholder, not later than ten (10) days before the Meeting, establishes ownership of the common shares and demands that the transferee’s name be included on the list of shareholders. References herein to “we”, “our”, the “Corporation” or “Petrominerales” refer to Petrominerales Ltd.

The instrument appointing a proxy must be in writing and must be executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation.

The persons named in the enclosed form of proxy are officers of the Corporation. As a shareholder, you have the right to appoint another person, who need not be a shareholder, to represent you at the Meeting. To exercise this right you should insert the name of the desired representative in the blank space provided on the form of proxy and strike out the other names or submit another appropriate proxy.

Advice to Beneficial Holders of Common Shares

The information set forth in this section is of significant importance to you if you do not hold your common shares in your own name. Only proxies deposited by shareholders whose names appear on our records as the registered holders of common shares can be recognized and acted upon at the Meeting. If common shares are listed in your account statement provided by your broker, then in almost all cases those common shares will not be registered in your name on our records. Such common shares will likely be registered under the name of your broker or an agent of that broker. In Canada, the vast majority of such shares are registered under the name of CDS & Co., the registration name for The Canadian Depository for Securities Limited, which acts as nominees for many Canadian brokerage firms. Common shares held by your broker or their nominee can only be voted upon your instructions. Without specific instructions, your broker or their nominee is prohibited from voting your common shares.

There are two kinds of beneficial shareholders: those who object to their names being made known to the issuers of securities they own, called objecting beneficial owners, and those who do not object to the issuer of the securities they own knowing who they are, called non-objecting beneficial owners (“NOBOs”).

The Corporation has decided to take advantage of those provisions in National Instrument 54-101 that permit it to deliver proxy-related material directly to its NOBOs. If you are a beneficial shareholder and Computershare Trust Company of Canada, the Corporation’s transfer agent, has sent these materials directly to you, your name and address and information about your holdings of common shares, have been obtained in accordance with applicable securities legislation from the intermediary holding common shares on your behalf. By choosing to send these materials to you directly, the Corporation has assumed responsibility for (i) delivering these materials to you and (ii) executing your proper voting instructions. As a result, NOBOs can expect to receive a scannable voting instruction form (“VIF”) from our transfer agent, Computershare Trust Company of Canada. These VIFs are to be completed and returned to Computershare Trust Company of Canada in the envelope provided. Computershare Trust Company of Canada will tabulate the results of the VIFs received from NOBOs and will provide appropriate instructions at the meeting with respect to the common shares represented by the VIFs they receive. If you are a NOBO and wish to vote your common shares in person at the meeting, please insert your own name in the space provided on the VIF to appoint yourself as proxyholder. Do not complete the voting instructions, as your vote will be counted at the meeting. Please register with the transfer agent, Computershare Trust Company of Canada, when you arrive at the meeting. If you are a beneficial shareholder, you should contact your nominee to discuss whether revocation is possible and what procedure to follow.

Revocability of Proxy

You may revoke your proxy at any time prior to the Meeting. If you or the person you give your proxy to attends personally at the Meeting, you or such person may revoke the proxy and vote in person. In addition to revocation in any other manner permitted by law, a proxy may be revoked by an instrument in writing executed by you or your attorney authorized in writing or, if you are a corporation, under your corporate seal or by a duly authorized officer or attorney of the corporation. To be effective the instrument in writing must be deposited either at our head office at any time up to and including the last business day before the day of the Meeting, or any adjournment thereof, at which the proxy is to be used, or with the chairman of the Meeting on the day of the Meeting, or any adjournment thereof.

Persons Making the Solicitation

This solicitation is made on behalf of our management. We will bear the costs incurred in connection with such. In addition to mailing forms of proxy, proxies may be solicited by personal interviews, or by other means of communication, by our directors, officers and employees who will not be remunerated therefor.

Exercise of Discretion by Proxy

The common shares represented by proxy in favour of management nominees will be voted on any poll at the Meeting. Where you specify a choice with respect to any matter to be acted upon the shares will be voted on any poll in accordance with the specification so made. If you do not provide instructions your shares will be voted in favour of the matters to be acted upon as set out herein. The persons appointed under the form of proxy which we have furnished are conferred with discretionary authority with respect to amendments or variations of those matters specified in the form of proxy and notice of Meeting and with respect to any other matters which may properly be brought before the Meeting or any adjournment

thereof. At the time of printing this information circular, we know of no such amendment, variation or other matter.

Except as otherwise indicated, all dollar amounts in this information circular are expressed in Canadian dollars and references to \$ are to Canadian dollars.

Management does not contemplate that any of the nominees will be unable to serve as a director, but, if that does occur for any reason prior to the Meeting, the persons designated in the enclosed form of proxy reserve the right to vote for other nominees in their discretion.

Special Business

Approval of Incentive Share Compensation Plan

The Board of Directors of the Corporation determined that it was in the best interests of the Corporation to adopt an incentive share compensation plan (the "**Incentive Share Compensation Plan**"). Petrominerales expects that the Incentive Share Compensation Plan will be an integral component of its total compensation program in terms of attracting and retaining key employees and enhancing shareholder value by aligning the interests of management and employees with the growth and profitability of Petrominerales. On November 27, 2009, the Board of Directors unanimously approved the adoption of the Incentive Share Compensation Plan at a regularly held meeting of the Board. Please see the section herein titled "*Incentive Share Compensation Plan*" for a complete summary of the terms of the Incentive Share Compensation Plan.

Shareholders will be asked at the Meeting to pass the following resolution (the "**Incentive Share Compensation Plan Resolution**"), with or without variation, relating to the approval of the Incentive Share Compensation Plan as described below:

"BE IT RESOLVED THAT:

The Incentive Share Compensation Plan of the Corporation be and is hereby authorized, confirmed, ratified and approved;

The maximum number of the number of common shares of the Corporation that may be reserved for issuance under the Incentive Share Plan shall not exceed 3,000,000; and

Any one director or officer of the Corporation is hereby authorized and directed for and on behalf of the Corporation to execute or cause to be executed and to deliver or cause to be delivered all such documents, and to do or cause to be done all such acts and things, as such director or officer may deem necessary or desirable in connection with the foregoing resolutions.”

In order to be approved, the Incentive Share Compensation Plan Resolution must be approved by an ordinary resolution of the shareholders, being a simple majority of the votes cast by shareholders present in person or by proxy at the Meeting who voted in respect of the Incentive Share Compensation Plan Resolution. The Board recommends that shareholders vote in favour of the Incentive Share Compensation Plan Resolution.

Unless otherwise directed, the management representatives named in the accompanying form of proxy intend to vote FOR the Incentive Share Compensation Plan Resolution at the Meeting.

As of the date of this management information circular, 47,730 Incentive Shares have been granted pursuant to the Incentive Share Compensation Plan, as more particularly set out below.

Employees of the Corporation	13,600	January 11, 2010	5 to 7 years from the date of grant	- Change of Control; - Determination by the Board of Directors

Shareholders will be asked at the Meeting to pass the following resolution (the “**Incentive Share Grant Resolution**”), with or without variation, relating to the ratification of the 47,730 Incentive Shares granted to date pursuant to the Incentive Share Compensation Plan, as described below:

“BE IT RESOLVED THAT:

In order to be approved, the Incentive Share Grant Resolution must be approved by an ordinary resolution of the shareholders, being a simple majority of the votes cast by shareholders present in person or by

proxy at the Meeting who voted in respect of the Incentive Share Grant Resolution. The Board recommends that shareholders vote in favour of the Incentive Share Grant Resolution.

Unless otherwise directed, the management representatives named in the accompanying form of proxy intend to vote FOR the Incentive Share Grant Resolution at the Meeting.

Approval of Amendments to the Corporation's Stock Option Plan

The Board of Directors of the Corporation determined that it was in the best interests of the Corporation to amend the stock option plan of the Corporation (the "**Stock Option Plan**") and on April 1, 2010 the Board of Directors unanimously approved the amendment to the Stock Option Plan described herein. Petrominerales believes that stock options are a valuable mechanism for incentivizing the Petrominerales' existing employees, attracting new employees and aligning their interests with those of our shareholders. To provide Petrominerales with the continued flexibility of granting stock options under the Stock Option Plan, the Corporation is seeking approval from shareholders at the Meeting, pursuant to the Stock Option Plan Amendment Resolution, to amend the maximum number of shares that may be reserved for issuance pursuant to stock options granted under the Stock Option Plan.

The Stock Option Plan maximum was previously 10% of the number of common shares of the Corporation issued and outstanding at the time of reservation, less those common shares reserved under any other share compensation arrangement of the Corporation. The Board of Directors approved the amendment to the maximum number of shares reserved under the Stock Option Plan to be 10% of the number of common shares of the Corporation issued and outstanding at the time of reservation.

Shareholders will be asked at the Meeting to pass the following resolution (the "**Stock Option Plan Amendment Resolution**"), with or without variation, relating to the approval as described below:

"BE IT RESOLVED THAT:

The approval of the amendments to the Stock Option Plan of the Corporation, as more particularly described in this management information circular, be and are hereby authorized, ratified, confirmed and approved;

Any one director or officer of the Corporation is hereby authorized and directed for and on behalf of the Corporation to execute or cause to be executed and to deliver or cause to be delivered all such documents, and to do or cause to be done all such acts and things, as such director or officer may deem necessary or desirable in connection with the foregoing resolutions."

In order to be approved, the Stock Option Plan Amendment Resolution must be approved by an ordinary resolution of the shareholders, being a simple majority of the votes cast by shareholders present in person or by proxy at the Meeting who voted in respect of the Stock Option Plan Amendment Resolution. The Board recommends that shareholders vote in favour of the Stock Option Plan Amendment Resolution.

Unless otherwise directed, the management representatives named in the accompanying form of proxy intend to vote FOR the Stock Option Plan Amendment Resolution at the Meeting.

Cease Trade Orders

Mr. John D. Wright is a director of Canadian Energy Exploration Inc. (“CEE”) (formerly TALON International Energy, Ltd.), a reporting issuer listed on the TSX Venture Exchange. A cease trade order (the “**ASC Order**”) was issued on May 7, 2008 against CEE by the ASC for the delayed filing of CEE’s audited annual financial statements and management’s discussion and analysis for the year ended December 31, 2007 (“**Annual Filings**”). The Annual Filings were filed by CEE on SEDAR on May 8, 2008. As a result of the Order, the TSX Venture Exchange suspended trading in CEE’s shares on May 7, 2008. In addition, on June 4, 2009 the British Columbia Securities Commission (“**BCSC**”) issued a cease trade order (the “**BCSC Order**”) against CEE for the failure of CEE to file its audited annual financial statements and management’s discussion and analysis for the year ended December 31, 2008 and its unaudited interim financial statements and management’s discussion and analysis for the three months ended March 31, 2009.

CEE made application to the ASC and BCSC for revocation of the ASC Order and BCSC Order. The ASC and BCSC have issued revocation orders dated October 14, 2009 and November 30, 2009, respectively, granting full revocation of compliance-related cease trade orders issued by the ASC and the BCSC in respect of CEE.

- a) was the subject of a cease trade or similar order or an order that denied the other issuer access to any exemptions under Canadian securities legislation that lasted for a period of more than thirty (30) consecutive days that was issued while the director or executive officer was acting in the capacity as director, chief executive officer or chief financial officer; or
- b) was subject to a cease trade order or an order that denied the relevant issuer access to any exemption under securities legislation that lasted for a period of more than thirty (30) consecutive days that was issued after the director or executive officer ceased to be a director, chief executive officer or chief financial officer and which resulted from an event that occurred while the director or executive officer was acting in the capacity as director, chief executive officer or chief financial officer.

COMPENSATION DISCUSSION AND ANALYSIS

General

This discussion describes the Corporation's compensation program for the President and Chief Executive Officer, the Vice President Finance and Chief Financial Officer and the three most highly compensated executive officers (collectively, referred to herein as the "Named Executive Officers" or the "Executives" or the "NEOs"). This section will address the Corporation's philosophy and objectives and provide a review of the process the Compensation Committee follows in deciding how to compensate the Corporation's Executives. This section will also provide discussion and analysis of the Compensation Committee's specific decisions about the compensation of the NEOs for the financial year ended December 31, 2009.

Composition of the Compensation Committee

The members of the Compensation Committee of the Board are Kenneth R. McKinnon (Chairman), Geir Ytreland and Alastair Macdonald. Two (2) of the three (3) members of the Compensation Committee are independent directors of Petrominerales and none of the members of the Compensation Committee are Chief Executive Officers of any publicly traded entity. Mr. Macdonald is not considered independent within the meaning of Multilateral Instrument 52-110, as he is an employee of Petrominerales Colombia Ltd., a wholly-owned subsidiary of the Corporation.

The Compensation Committee is charged with the establishment, execution and periodic review of our compensation program and the compensation and performance standards for the Executives. The Board of Directors believes the Compensation Committee collectively has the knowledge, experience and background required to fulfill its mandate.

Compensation Philosophy and Objective

The Corporation's compensation philosophy is aimed at attracting and retaining quality and experienced Executives, which is critical to our success.

The Corporation's executive compensation philosophy and program objectives are intended to provide competitive levels of compensation in order to attract, motivate and retain talented executives. The program is intended to create an alignment of interest between the Corporation's Executives and

shareholders so that a significant portion of each Executive's compensation is linked to maximizing shareholder value. In support of this philosophy, the Executive compensation program is designed to reward performance that is directly relevant to the Corporation's short-term and long-term success. The Corporation attempts to provide both short-term and long-term incentive compensation that varies based on both corporate and individual Executive performance.

The Corporation's executive compensation program is structured into three main components: base salary, annual incentives, and long term incentives including stock options ("**Stock Options**") granted pursuant to the Corporation's Stock Option Plan, deferred common shares ("**DCS**") granted pursuant to the Corporation's deferred common share plan ("**DCS Plan**") and incentive shares ("**Incentive Shares**") granted pursuant to the Incentive Share Compensation Plan. The following discussion describes the Corporation's plans by component of compensation and discusses how each component relates to the Corporation's overall executive compensation objective. In establishing the Executive compensation program, the Corporation believes that:

- base salaries provide an immediate cash incentive for the Corporation's Executives and should be at levels competitive with peer companies that compete with the Corporation for business opportunities and executive talent;
- annual bonuses encourage and reward performance over the financial year and reflect progress toward Corporation-wide performance objectives and individual Executive objectives; and
- Stock Options, DCS and Incentive Shares are long-term incentives that are intended to balance Executive focus between short and long term goals and provide capital accumulation linked directly to the Corporation's performance.

The Compensation Committee has had discussions on the relative merits of its compensation practice which embraces a relatively non-formulaic approach to the compensation of our Executives and has concluded that the current approach is successful and has resulted in an effective, focused management team. The approach provides the necessary flexibility to appropriately incentivize Petrominerales' management team in changing market and industry conditions. This methodology is continuously evaluated to ensure Executive compensation is linked with the performance of the Corporation.

The Corporation's Executive compensation program has been designed to accomplish the following long-term objectives:

- create a proper balance between building shareholder value and competitive Executive compensation while maintaining good corporate governance;
- produce long-term, positive results for the Corporation's shareholders;
- align Executive compensation with corporate and individual performance and appropriate peer group comparisons; and
- provide competitive compensation and benefits that will enable the Corporation to recruit, retain and motivate the Executive talent necessary to be successful.

Compensation Process

The Executive compensation program is administered by the Corporation's Compensation Committee. The Compensation Committee held one (1) meeting in 2009, and a number of informal meetings via teleconference during 2009, with certain matters relating to compensation being approved by unanimous written resolution of the Compensation Committee or the full Board of Directors as applicable. In addition, the Compensation Committee held two (2) meetings in early 2010 with respect to bonus

amounts and long term incentive compensation of the Executives of the Corporation relating to the performance of both Corporation and individual Executives in the 2009 year. The President and Chief Executive Officer of Petrominerales typically attends meetings of the Compensation Committee, but does not have the right to vote on any matter before the Compensation Committee.

The Compensation Committee, in consultation with the President and Chief Executive Officer, establishes base salaries, cash bonuses and benefits for the Executives. Each component of compensation is determined on an individual Executive basis.

For Executives, the Compensation Committee uses a compensation program based on an assessment of the overall performance of Petrominerales (see "*Performance Graph*"), an assessment of overall performance of Petrominerales compared to the goals set for the Corporation, relative performance of the Corporation compared to the Compensation Peer Group (as set forth below), the achievements and overall contribution of each individual Executive. The evaluation of each individual Executive also includes a review of the Executive's execution of on-going projects and transactions, operational performance and progress on growth and other initiatives. The Compensation Committee reviewed the Corporation's performance in 2009 as exceeding expectations; this finding did not trigger any specific compensation for Executives, but rather served to provide the general context for the Compensation Committee's review of the performance of each individual Executive.

The Compensation Committee retains and does not delegate any of its power to determine matters of executive compensation and benefits, although the Compensation Committee does consider compensation and benefit proposals made to the Compensation Committee by the President and Chief Executive Officer of the Corporation. The Compensation Committee reports to the Board of the Corporation on the major items covered at each Compensation Committee meeting. While the Compensation Committee does not have scheduled *in camera* sessions, the Committee regularly meets *in camera* without any members of management of the Corporation present.

Compensation Peer Group

Given the nature of Petrominerales' operations, peer companies (the "**Compensation Peer Group**") are varied. The composition of the Compensation Peer Group is reviewed annually by the Compensation Committee for its ongoing business relevance to Petrominerales. For the year ended December 31, 2009, the Compensation Peer Group surveyed was as follows: Pacific Rubiales Energy Corp., Petrolifera Petroleum Limited, Gran Tierra Energy Inc., Petro Andina Resources Inc., and Niko Resources Ltd.

The factors assessed by the Compensation Committee in determining the Compensation Peer Group included operational focus, level of international operations, total revenue, total assets, cash flow, number of employees and daily production levels. In some cases, the companies included in the Compensation Peer Group have larger or smaller operations than the Corporation, however, given their international focus, the compensation data from these companies was considered useful. The compensation data from the Compensation Peer Group provides an initial reference point for the Compensation Committee in relation to both overall Corporation performance and as a reference point for individual Executive Compensation.

Base Salaries

The base salaries of the Executives are reviewed annually to ensure they reflect a balance of market conditions, commensurate with salaries of peers in the Compensation Peer Group, the levels of responsibility and accountability of each role, the skill and competencies of the individual, retention considerations as well as the level of demonstrated performance.

Variable Cash Incentive Awards – Bonuses

The Compensation Committee's philosophy with respect to Executive bonuses is to align the issuance of bonuses with the performance of the Corporation and the performance of each individual Executive.

For 2009, bonuses were determined by the Compensation Committee on the basis of a combination of factors. Quantitative factors included operating costs, oil and gas reserves, and production levels. Qualitative factors included growth, staff development and mentorship, environmental, health and safety and leadership. Bonus amounts are typically evaluated and paid in the first quarter of each financial year. For 2009, cash bonuses ranged between 32% and 52% of base salary, depending upon the performance by the Corporation and the individual Executive when reviewed in light of the quantitative and qualitative factors set forth above. For the year ended December 31, 2009, the Compensation Committee approved the payment of an aggregate of \$389,846 in cash bonuses for the NEOs of the Corporation.

Long Term Incentive Plans

The Corporation uses its Stock Option Plan, DCS Plan and Incentive Share Compensation Plan as a part of its compensation strategy for its Executives. In addition, the Corporation's Executives are eligible to participate in the Corporation's Employee Share Ownership Plan.

Stock Options, DCS and Incentive Shares are intended to align executive and shareholder interests by attempting to create a direct link between compensation and shareholder return as measured through the price of the Corporation's common shares. Additional grants of Stock Options, DCS and Incentive Shares may be made periodically to recognize the exemplary performance of certain Executives. An annual grant of Stock Options is typically made to Executives based on individual performance and the performance of the Corporation during the most recently completed financial year in relation to corporate goals and objectives as well as in comparison to performance achieved by industry peer corporations during the comparable period. Stock options are awarded to employees of the Corporation by the Board based upon the recommendation of the Named Executive Officers and other senior management, who base their decisions upon the level of responsibility and contribution of the individuals toward the Corporation's objectives and goals. Also, the Compensation Committee considers the overall number of stock options that are outstanding relative to the number of outstanding Common Shares in determining whether to make any new grants of stock options and the size of such grants. The granting of these options in the aggregate is reviewed and approved by the Compensation Committee.

As a result of the use of share based compensation arrangements, a significant part of Executive compensation is dependent upon the performance of the Corporation. If the Corporation does not perform within expected parameters in the short or long term, then the Executives may receive only a fraction of their total possible potential amount of remuneration.

The Corporation's Stock Option Plan, DCS Plan, Incentive Share Compensation Plan, and Employee Share Ownership Plan are described in detail in this circular under the headings "*Stock Option Plan*", "*Deferred Common Share Plan*", "*Incentive Share Compensation Plan*" and "*Employee Share Ownership Plan*".

Group Benefits/Perquisites

The Compensation Committee believes that the perquisites for Executives should be limited in scope and value and be commensurate with perquisites offered by the Compensation Peer Group. The Corporation provides its NEOs living in Colombia with additional foreign assignment benefits, the cost of which is

disclosed under the heading “*Summary Compensation Table*” under the column titled “*All Other Compensation*”.

Management Services Agreement

The Corporation and Petrobank entered into a management services agreement (the “Management Services Agreement”) dated June 9, 2006, and effective May 1, 2006 which provides that Petrobank will provide the Corporation with the services of John D. Wright and Corey C. Ruttan, as President and Chief Executive Officer and Vice President Finance and Chief Financial Officer, respectively, and the services of other employees of Petrobank from time to time, and that Petrobank shall manage and administer the business of the Corporation on an as needed basis from time to time. It is the intention of the parties that Messrs. Wright and Ruttan allocate their time between providing services in their respective roles with the Corporation, Petrobank, and PetroBakken Energy Ltd. since October 2009. The Management Services Agreement automatically renews annually unless one months’ notice is given by either party prior to the commencement of the next term. From the effective date, May 1, 2006, to March 31, 2009, Petrominerales paid a monthly fee of \$75,000 for the services provided under the Management Services Agreement. Effective April 1, 2009, the monthly fee was increased to \$130,000. The Management Services Agreement may be terminated by either party upon thirty days’ notice and payment by the Corporation of all fees and expenses owing under the Management Services Agreement.

Termination and Change of Control Benefits

Employment Contracts

Two of the Executives are parties to employment agreements with the Corporation, which outline the terms and conditions of their employment. The employment agreements provide for confidentiality requirements, base salary amounts, vacation entitlements, change of control provisions, and termination payments. Each employment agreement is for an indefinite term but may be terminated earlier by the Corporation for cause. The Compensation Committee annually reviews termination payment amounts for each of the NEOs as calculated under the Employment Agreements. Additional details with respect to compensation paid to the NEOs pursuant to these employment agreements is set forth under the heading “*Summary Compensation Table*”.

A change of control for the purposes of the Corporation's employment agreements generally means: the sale of all or substantially all of Petrominerales' assets, except in the case of a swap of assets; the acquisition, directly or indirectly, by any person or group of persons acting jointly or in concert, of that number of Petrominerales' voting shares which is equal to or greater than 50% of Petrominerales' issued and outstanding voting shares immediately after such acquisition, but excluding any issue or sale of voting shares in connection with a distribution to the public either by way of prospectus or private placement, or any issue or sale of voting shares to a person or group of persons for purposes of effecting an acquisition of assets, directly or indirectly, by Petrominerales; or the election at a Meeting of Petrominerales' shareholders of that number of persons which would represent a majority of the Board of Directors, as Petrominerales' directors who are not included in the slate for election as directors proposed to Petrominerales' shareholders by management of Petrominerales.

Executive Vice President and Colombian Country Manager

The terms of Mr. Scott's employment agreement with the Corporation (the "Executive VP Agreement") include that the Corporation will be required to pay Mr. Scott a cash amount equal to one year of base compensation if the Corporation terminates the Executive VP Agreement at anytime other than for cause. In the event of a change of control, if Mr. Scott is offered an equivalent position but elects to decline such position, Mr. Scott shall have the right to terminate his employment contract with Petrominerales, in which case he shall be entitled to a severance payment consisting of a payment of the cash equivalent of six (6) months of his base salary.

Corporate Controller

The terms of Ms. Morales' executive employment agreement with the Corporation provides that should she be terminated without cause, Ms. Morales will be entitled to a cash payment equivalent to one (1) month of annual salary per completed year of service, with a minimum of three (3) months base salary payable. In the event that Ms. Morales is terminated with cause, she will not be entitled to any payment from the Corporation and will not be entitled to any termination notice period. If a change of control occurs, and Ms. Morales is offered and accepts an equivalent position with the Corporation following such change of control, no payment is made from the Corporation to Ms. Morales. If a change of control, occurs and Ms. Morales is offered a position that is not considered an equivalent employment position, Ms. Morales may elect to terminate her employment and will be entitled to a payment of the cash equivalent of one (1) month base salary for each completed year of service to the Corporation. Should Ms. Morales be offered an equivalent employment position following a change of control, and should she wish to terminate her employment agreement at her discretion, she will be entitled to a cash payment equivalent to one-half month of base salary per completed year of service.

Estimated Payment Made to Named Executive Officers upon Termination of Employment Agreements

The following table provides a calculation of the payments that would have to be made to the applicable Named Executive Officers pursuant to their respective employment agreements under the noted events with and without a deemed change of control. All payments are calculated assuming the date of the termination event was, and if applicable, a change of control occurred, on December 31, 2009. The disclosed values represent payments made pursuant to the terms of the employment agreements.

Name	WITHOUT A CHANGE OF CONTROL			WITH A CHANGE OF CONTROL
	Payment Made in the Event of Termination with Cause (\$)	Payment made in the Event of Termination Without Cause (\$)	Payment made in the Event of Retirement or Death (\$)	Payment made Following a Change of Control ⁽¹⁾ (\$)
John (Jack) F. Scott	nil	228,395	nil	114,198
Tannya Morales	nil	82,650	nil	82,650 ⁽²⁾

Notes:

1. The calculations in this table are based on the assumption that upon a change of control, the Named Executive Officers would elect to terminate their employment with the Corporation.
2. This calculation assumes that upon a change of control, Ms. Morales was offered an employment position that was not considered to be equivalent to her current employment position and rejected such offer. Should Ms. Morales reject an equivalent employment position, Ms. Morales would be entitled to one half of this amount.

Summary Termination and Change of Control Benefits pursuant to Employment Agreements and Incentive Plans

Stock Option Plan

The Corporation adopted the Stock Option Plan pursuant to which the Corporation may grant Stock Options to employees or insiders of the Corporation or to any other person or company engaged to provide ongoing management or consulting services for the Corporation or for any entity controlled by the Corporation (collectively, "Service Providers"). The maximum number of common shares that may be reserved for issuance pursuant to Stock Options granted under the Stock Option Plan is 10% of the aggregate number of common shares issued and outstanding, less any shares reserved under any other share compensation plan of the Corporation. The purpose of the Stock Option Plan is to provide the Corporation and its shareholders the benefits of incentives inherent in share ownership by Service Providers who, in the judgment of the Board, will be largely responsible for its future growth and success.

The Stock Option Plan contains provisions that limit issuances to *insiders* so that the maximum number of common shares that may be reserved for issuance to *insiders* pursuant to Stock Options granted under the Stock Option Plan and any other share compensation arrangement is 10% of the aggregate number of common shares issued and outstanding. The maximum number of common shares that may be issued to *insiders* under the Stock Option Plan and any other share compensation arrangement within a one (1) year period is 10% of the aggregate common shares issued and outstanding; provided that, the maximum number of common shares that may be issued to any one *insider* or such *insider's* associates under the Stock Option Plan within a one (1) year period is 5% of the aggregate number of common shares issued and outstanding. In addition, not greater than 5% of the issued and outstanding common shares may be available for issuance to any one person under the Stock Option Plan. For the purposes of the Stock

Option Plan, a “*share compensation arrangement*” means any stock option, stock option plan, employee stock purchase plan or any other compensation or incentive mechanism which provides for the issuance or potential issuance of common shares, including a share purchase from treasury which is financially assisted by the Corporation by way of a loan, guarantee or otherwise.

The exercise price of Stock Options granted under the Stock Option Plan will be fixed by the Board at the time of grant; provided that, such exercise price may not be less than the market price of the common shares on the date of the grant. For the purposes of the Stock Option Plan, market price means the volume weighted average trading price of the common shares on the TSX for the five (5) trading days prior to the date of the grant (or such other stock exchange in Canada if not then listed and posted for trading on the TSX) and if the common shares are not listed and posted for trading on any stock exchange in Canada, the Board will determine the market price. No common shares will be issued upon the exercise of Stock Options until the full purchase price is received.

Stock Options granted under the Stock Option Plan will vest as determined by the Board and will be exercisable for a period generally not exceeding five (5) years, as determined by the Board, but in any event the option period shall not exceed ten (10) years from the date of grant. The Stock Option Plan provides that subject to the rules and regulations of the TSX and any other applicable laws, the Board may at any time authorize the Corporation to loan money to a Service Provider on such terms and conditions as the Board in its sole discretion may determine, to assist such Service Provider to exercise an option held.

The Stock Option Plan also includes provision for a cashless option exercise right (the “Put Right”). Under the Put Right, optionholders can request that the Corporation purchase for cash all or any part of their Stock Options at a price being the difference between the current market price of the common shares, or a lower price as the Board may determine, and the exercise price of each option. Upon acceptance of the Put Right by the Corporation, the Corporation will deliver a cheque to the exercising optionholder within three (3) business days of receipt of notice exercising this Put Right.

All benefits, rights and options accruing to any participant in accordance with the terms and conditions of the Stock Option Plan shall not be transferable or assignable unless specifically provided in the Stock Option Plan. During the lifetime of a Service Provider, all benefits, rights and options may only be exercised by the Service Provider.

If the event of the death of a participant, all vested and unvested Stock Options held by such participant at the date of death shall be exercisable for six (6) months after the date of death or prior to the expiration of the period during which the option may be exercised, whichever is sooner. If a participant ceases to be employed by or to be a director or officer of the Corporation for cause, no Stock Options may be exercised following the date on which such participant ceases to be so employed or ceases to be a director or officer, as the case may be. If a participant voluntarily ceases employment with the Corporation or voluntarily ceases to be a director or officer of the Corporation, then any vested option held by such participant at the effective date thereof shall be exercisable only for seven (7) days after such date, or prior to the expiration of the period during which the option may be exercised, whichever is sooner. If a participant ceases to be employed by or to be a director or officer of the Corporation by way of termination without cause, then any vested option held by such participant at the effective date thereof shall be exercisable for three (3) months after such date or prior to the expiration of the period during which the option may be exercised, whichever is sooner.

The Board has the right to amend, modify or terminate the Stock Option Plan at any time if and when it is advisable in the absolute discretion of the Board. Such right of the Board includes the ability to amend, modify or terminate the following provisions without shareholder or optionee approvals: (a) those persons to whom Stock Options may be granted; (b) general terms of the Stock Options including but not limited

to vesting, change to the option period and the manner of exercising Stock Options; (c) exercise of Stock Options upon termination of employment or death; (d) exercise of Stock Options in the event of a takeover bid, amalgamation, consolidation, merger or similar transaction and adjustment in common shares as a result of such events; (e) financial assistance to optionees; (f) general limits on the size of Stock Options grants to certain individuals, including *insiders*; (f) transferability or assignability of Stock Options; and (g) the terms, conditions and exercise of the Put Right.

As of the date of this information circular, and prior to the resolutions proposed in this management information circular becoming effective, 2,208,306 Stock Options have been exercised since inception of the Stock Option Plan, there are 5,763,468 Stock Options outstanding, representing 5.8% of the issued and outstanding common shares of the Corporation, and the Corporation may grant 630,795 Stock Options, representing 0.64% of the issued and outstanding common shares of the Corporation.

Deferred Share Compensation Plan

The purpose of the DCS Plan is to provide effective incentives for the directors, officers and employees of the Corporation to promote the success and business of the Corporation and to reward such directors, officers and employees in relation to the long-term performance and growth of the Corporation by encouraging ownership of common shares. There are two components to the DCS Plan: (i) a deferred grant to directors of the Corporation of such number of common shares per calendar year which is approved by the Compensation Committee from time to time; and (ii) a deferred grant to officers and employees of the Corporation who are approved by the Compensation Committee of such number of common shares per calendar year as is approved by the Compensation Committee. Compensation is payable pursuant to the DCS Plan in the form of a deferred grant of common shares.

Common shares which a director, officer or employee is entitled to receive pursuant to the DCS Plan will not be issued until the director, officer or employee has delivered to the Corporation an election in writing that the common shares be issued together with payment to the Corporation in the amount of \$0.05 for each common share issued. A director, officer or employee will not be entitled to elect to be issued any of the common shares which he or she has been granted until a period of three (3) years has passed since the date of grant of such common shares or until the director, officer or employee ceases to be a director, officer or employee of the Corporation, whichever is earlier. Upon a director, officer or employee ceasing to be a director, officer or employee of the Corporation, such director, officer or employee shall be required to elect whether he or she will be issued all or any portion of the common shares which have been granted to him or her (and to deliver payment for all of such common shares to be issued), such election and payment to be made within thirty (30) days following the director, officer or employee ceasing to be such and delivery of such common shares to occur the earlier of three (3) years after the date of grant of such common shares or one (1) year after the director, officer or employee of the Corporation ceases to be such. A director, officer or employee shall have no right to receive common shares granted to him or her which have not been issued on the date that is ten (10) years following the date of grant.

The DCS Plan provides that the number of common shares that are issuable to a director, officer or employee pursuant to the DCS Plan shall be increased on each date on which a cash dividend is paid to shareholders by an amount equal to the product of the number of the common shares which remain issuable and the fraction which has as its numerator the cash dividend paid, expressed as an amount per common share and which has as its denominator the weighted average trading price of common shares on the TSX for the ten (10) trading days preceding the record date for such dividend. The total number of common shares issuable pursuant to the DCS Plan, subject to adjustment in accordance with the DCS Plan, including adjustments for cash dividends paid on the common shares, shall not exceed 500,000 common shares.

No common shares may be issued to a director, officer or employee under the DCS Plan if such issuance could result, at any time, in (i) the number of common shares reserved for issuance pursuant to issuances under the DCS Plan and all other established or proposed share compensation arrangements in respect of common shares granted to *insiders* exceeding 10% of the aggregate issued and outstanding common shares, (ii) the issuance to *insiders* of the Corporation pursuant to the DCS Plan and all other established or proposed share compensation arrangements, within a one (1) year period, of a number of common shares exceeding 10% of the aggregate issued and outstanding common shares, or (iii) the issuance pursuant to the DCS Plan and all other established or proposed share compensation arrangements to any one *insider* of the Corporation, or such *insider's* associates, within a one (1) year period, of a number of common shares exceeding 5% of the aggregate issued and outstanding common shares. The Board reserves the right to make amendments and modifications to the Stock Option Plan or terminate the Stock Option Plan and to amend or modify a DCS Agreement without shareholder approval.

As of the date of this information circular, 13,625 DCS have been exercised since inception of the DCS Plan, there are 97,844 DCS outstanding, representing 0.1% of the issued and outstanding common shares of the Corporation, and the Corporation may grant 388,531 DCS, representing 0.4% of the issued and outstanding common shares of the Corporation.

Incentive Share Compensation Plan

The Board of Directors of the Corporation adopted an incentive share compensation plan (the “**Incentive Share Compensation Plan**”) effective November 27, 2009, for the purpose of providing effective incentives for the directors, officers, service providers and employees (collectively, the “**Incentive Plan Participants**”) of Petrominerales and its affiliates, to promote the success and business of Petrominerales and to reward such Incentive Plan Participants in relation to the long-term performance and growth by encouraging ownership of the Corporation’s Shares. Compensation is payable pursuant to the Incentive Share Compensation Plan in the form of incentive shares (“**Incentives**”). Under the Incentive Share Compensation Plan, the Board may grant Incentives to such Incentive Plan Participants as it chooses in such numbers as it chooses. The Incentives vest over time and, upon vesting, each one (1) Incentive is entitled to be redeemed for one (1) common share of the Corporation.

Common shares of the Corporation, which an Incentive Plan Participant is entitled to receive pursuant to the Incentive Share Compensation Plan, will not be issued until such Incentives have vested and the Incentive Plan Participant has delivered to Petrominerales an election in writing that the common shares underlying the Incentives be issued together with payment to Petrominerales in the amount of \$0.05 for each common share issued. An Incentive Plan Participant shall have no right to receive common shares underlying Incentives granted to him or her which have not been issued on the date that is ten (10) years following the date of grant.

The Incentive Share Compensation Plan provides that the number of common shares issuable to a Incentive Plan Participant with respect to the vested Incentives held by such Incentive Plan Participant shall be increased on each date on which a cash dividend, if applicable, is paid to shareholders by an amount equal to the product of the number of the vested Incentives held by the Incentive Plan Participant and the fraction which has as its numerator the cash dividend paid, expressed as an amount per share and which has as its denominator the weighted average trading price of the Corporation’s shares on the TSX for the ten (10) trading days preceding the record date for such dividend.

The total number of shares of the Corporation issuable pursuant to the Incentive Share Compensation Plan, subject to adjustment in accordance with the Incentive Share Compensation Plan, including adjustments for cash dividends, if any, paid on the Corporation’s common shares, shall not exceed 3,000,000 shares.

No common shares may be issued to an Incentive Plan Participant under the Incentive Share Compensation Plan if such issuance could result, at any time, in (i) the number of shares of the Corporation reserved for issuance pursuant to issuances under the Incentive Share Compensation Plan and all other established or proposed share compensation arrangements in respect of shares granted to Insiders exceeding 10% of the aggregate issued and outstanding shares of the Corporation, (ii) the issuance to Insiders of Petrominerales pursuant to the Incentive Share Compensation Plan and all other established or proposed share compensation arrangements, within a one (1) year period, of a number of shares exceeding 10% of the aggregate issued and outstanding common shares of the Corporation, or (iii) the issuance pursuant to the Incentive Share Compensation Plan and all other established or proposed share compensation arrangements to any one Insider of Petrominerales, or such Insider's associates, within a one (1) year period, of a number of shares exceeding 5% of the aggregate issued and outstanding common shares of the Corporation. The Board reserves the right to make amendments and modifications to the Incentive Share Compensation Plan or terminate the Incentive Share Compensation Plan and to amend or modify an Incentive Agreement between Petrominerales and the Incentive Plan Participant without shareholder approval.

Incentive Shares granted to Incentive Plan Participants under the Incentive Share Compensation Plan are non-assignable unless the prior written consent of Petrominerales has been obtained. An Incentive Plan Participant may offer to dispose of his or her unvested Incentives to Petrominerales for cash in an amount not to exceed the fair market value and Petrominerales has the right, but not the obligation, to accept the Incentive Plan Participant's offer. Fair market value is to be determined by the Board in such case, but cannot exceed the five day weighted average trading price of the Shares on the TSX.

In the event of the resignation, retirement or death of a Incentive Plan Participant, or the termination of the employment of a Incentive Plan Participant, whether with or without cause or reasonable notice, prior to the vesting of an Incentive, such Incentive shall immediately cease and terminate and thereafter shall be of no further force or effect whatsoever.

The Board may amend the Incentive Share Compensation Plan or any outstanding Incentives in any manner or discontinue it at any time without the approval of the shareholders of Petrominerales except that: (i) the consent of the applicable Incentive Plan Participants must be obtained for any amendment that would adversely affect such Incentive Plan Participant's outstanding Incentives, and (ii) the approval of the shareholders of Petrominerales must be obtained for any amendment that would have the effect of increasing the number of Incentives that may be granted under the Incentive Share Compensation Plan, increasing the number of common shares of the Corporation that may be reserved for issuance under the Incentive Share Compensation Plan, or permitting transferability of Incentives.

In the event a change of control of the Corporation is contemplated or has occurred, all Incentive Shares which have not otherwise vested in accordance with their terms shall vest and be exercisable at such time as is determined by the Board, notwithstanding the other terms of the Incentive Shares. Another example of when vesting of Incentive Shares may occur is if the Board of Directors, in its sole discretion at any time, elects to accelerate or provide for the acceleration of, the vesting of Incentive Shares previously granted.

The Incentive Share Compensation Plan provides that appropriate adjustments in the number of shares issuable on the vesting of an Incentive shall be made by the board of directors of Petrominerales to give effect to relevant changes to the issued or authorized capital of Petrominerales.

As of the date of this management information circular, 47,730 Incentive Shares are outstanding, representing 0.05% of the issued and outstanding common shares of the Corporation, and the Corporation

may grant 2,952,270 Incentive Shares, representing 2.9% of the issued and outstanding shares of the Corporation.

Employee Share Ownership Plan

The Corporation has an employee share ownership plan (“ESOP”) pursuant to which all permanent full-time and part-time employees of the Corporation may contribute up to 5% of their gross annual salary to the ESOP, with the Corporation matching the contribution initially on a 100% basis, and thereafter on a pre-defined basis. The Corporation’s matching contribution increases after twenty-four (24) months of the Employee’s participation to 125%; after 60 months of participation to 150%; and after ninety six (96) months of participation to 200%. The Corporation, through its appointed independent firm, uses the contributions to acquire shares on behalf of the employees through open market purchases at the current market price on the TSX.

For the year ended December 31, 2009, the Corporation’s share of the contribution is recorded as general and administrative expense and amounted to an aggregate of \$400,383, where \$36,745 of this aggregate amount was contributed by the Corporation to match the contributions of the Executives. The Corporation’s Executives are eligible to participate in the ESOP on the same basis as all other employees of the Corporation.

Board of Directors

The Board's fundamental objectives are to enhance and preserve long-term shareholder value and to ensure the Corporation meets its obligations on an ongoing basis.

While the Board has delegated the responsibility for day-to-day management of the Corporation to management, the Board has implicitly and explicitly acknowledged its responsibility for the stewardship of the Corporation, including the responsibility for:

- (a) approving and monitoring the Corporation's strategic planning through a regular reporting and review process;
- (b) the identification of the principal risks of the Corporation's business and ensuring the implementation of appropriate systems to manage these risks;
- (c) the appointment of the senior executive officers and succession planning; and

At the Corporation's expense, individual directors may engage outside advisors on any matter, when it considers it necessary or desirable.

Meetings

The Board is scheduled to meet quarterly, with additional meetings held as appropriate or required. While the Board does not hold regularly scheduled meetings comprised solely of independent directors, a portion of many Board meetings consist of an '*in camera*' session of the independent directors, where non-independent directors and members of management of the Corporation are not in attendance.

Composition of the Board

The Board is currently comprised of seven members, a majority (five) of whom are considered independent. Messrs. Oaks (Chairman of the Board), McKinnon, Umaña-Valenzuela, Sarpi, and Ytreland are independent directors.

Mr. Wright would not be considered an independent director because he would be considered to have a "material relationship", as defined in Multilateral Instrument 52-110 – Audit Committees ("MI 52-110"), with the Corporation, as he is a current executive officer of the Corporation. Mr. Macdonald is not considered independent within the meaning of MI 52-110 since he is employed by Petrominerales Colombia Ltd., a wholly-owned subsidiary of the Corporation.

During 2009, the Board held five (5) meetings, the Audit Committee held five (5) meetings, the Compensation Committee held one (1) meeting and the Reserves Committee held one (1) meeting. All Board members at the time of such meetings were present at all Board meetings held during 2009, with

the exception of Messrs. Ytreland and Sarpi who each attended four (4) out of a total of five (5) Board meetings. All committee members at the time of such meetings were present at all committee meetings held during 2009.

The following Board members are directors of other reporting issuers: Mr. McKinnon for PetroBakken Energy Ltd. and Petrobank Energy and Resources Ltd.; Mr. Oaks for Petrobank Energy and Resources Ltd., Mr. Umaña-Valenzuela for Sociedades Bolivar S.A. listed on Bolsa de Valores de Colombia (The Colombian Stock Exchange) and Mr. Wright for Canadian Energy Exploration Inc. (formerly Talon International Energy Ltd.), Hawk Exploration Ltd., PetroBakken Energy Ltd. and Petrobank Energy and Resources Ltd.

Mandate of the Board of Directors

The Board and each of its committees have written mandates. The mandate of the Board is attached as Schedule "A" to this information circular.

The Board has the responsibility to oversee the conduct of the business of the Corporation and has delegated the responsibility for the day-to-day conduct of the business to the President and Chief Executive Officer and other members of management, subject to compliance with plans and objectives that may be approved from time to time by the Board. The Chair of each committee of the Board is charged with leading and assessing each committee to ensure it fulfills its mandate as set out in the committee terms of reference.

Orientation and Continuing Education

The Board provides an informal orientation program for all new directors. In addition, all directors, both current and new directors, are encouraged to attend, at the expense of the Corporation, applicable educational programs so as to ensure that they are familiar with aspects of the Corporation's operations and assets. Educational programs are also provided for directors on an 'as requested' basis. New members of the Board are provided with background information about the Corporation's business, current issues and corporate strategy. As well, any director has unrestricted direct access to any member of senior management and their staff at any time. The Board believes that these procedures are practical and effective in light of the Corporation's particular circumstances, including the size of the Board, the size of the Corporation, the nature and scope of the Corporation's business and operations and the experience and expertise of Board members.

Code of Ethics

The Board has adopted an extensive Disclosure, Confidentiality and Trading Policy to which all such persons are subject. This policy encourages ethical conduct in that it reflects the importance of confidentiality in respect of the Corporation's activities and restricts trading in the securities of the Corporation at times when individuals may be in possession of material non-public information. The Corporation also has written policies in place in respect of conduct, privacy, harassment and whistleblowing. Compliance with the Corporation's various policies is monitored by management of the Corporation, with reports to the Board, if necessary.

In addition, the Corporation has in place a written Vision and Values statement, which outlines the Corporation's commitment to safety, shareholder value, its employees, the environment and integrity. Management of the Corporation and the Board are of the view that the Vision and Values statement encourages and promotes a culture of ethical business conduct within the Corporation. A copy of the Vision and Values statement can be obtained free of charge by writing to the Vice President Finance and Chief Financial Officer of the Corporation. In light of the foregoing, the Corporation has not adopted a formal written code of ethics.

Nomination of Board Members

All directors are encouraged to identify and put forth potential nominees. The Board believes that these procedures are practical and effective in light of the Corporation's particular circumstances, including the size of the Board and the size of the Corporation.
